

Other Products

We are also supplying the following products:-

1) L.T Capacitor Bank / Panel:

Rating: 100kVAR to 5000kVAR

Voltage: 440V, 50Hz, 3 - Phase (Delta Connected)

Current Capacity: Up to 6500A

Capacitor Type: Oil Cooled / Gas Filled Bottle type

Overall Efficiency: 85% to 90% on Full Rated Voltage

Switching Mode: Through Contactor / Through MCB

Protection Consideration: Fast Sensing Over current relay, Over Voltage Relay

Key Features: Indicating Lamps, Night Maintenance Lamp, Cooling Fan, Control Terminals ,
Main Power Copper Busbars

Installation: Indoor / Outdoor

2) H.T Capacitor Bank / Panel:

Rating: 100kVAR to 50MVAR

Voltage Levels: 1.1kV , 2.2kV, 3.3kV, 6.6kV, 8.8kV, 11kV, 22kV, 33kV
(1 - Phase / 3 - Phase Connection Type)

Capacitor Type: Oil Cooled with H.T Bushings

Overall Efficiency: 85% to 90% on Full Rated Voltage

Switching Mode: Through knife Switches / Isolators Motorized or Manually Operated

Protection Consideration: C.T Operated Fast Sensing Relays

Installation: Indoor / Outdoor

3) C.T O.V.I.T Test Kit (For Secondary Side Injection)

4) 10kV Peak kV Meter (For Secondary Side Voltage Measurement of C.T)

5) Semi - Automatic / Fully Automatic A.C - D.C High Voltage Tester Up to 100kV

6) Cable Test Panel

7) High Current Source / Primary Injection Kit Up to 10,000A

8) Core Test Panel

9) Individual C.T - P.T (for Transformer Testing Purpose)

10) A.C / D.C Variable Power Source Up to 100A with 440V

11) Energy Meter Calibration Panel / Phantom Load Test Panel
