

Standard Current Transformer

Primary Current: 1A to 5000A, A.C, 50Hz / 60Hz

Secondary Current: 5A / 1A, A.C, 50Hz / 60Hz

V.A (Burden): 1.25 / 2.5 / 5 / 7.5 / 10 / 15 with U.P.F and 0.8 P.F

Accuracy Class: 0.005 / 0.02 / 0.05 / 0.1 / 0.2

Operated Frequency: 50Hz to 200Hz

System Voltage: 0.4kV to 220kV

Purpose: For Losses Measurement

I.S Compliances: IEC 61869 / IS 16227 & Other Standards

Type: Wound / Ring Type

Insulation Medium: Oil Immersed / Resin Cast

Enclosure Type: Aluminium Cases / PVC Enclosures / M.S Tank / FRP Tank

Winding Material: Copper

Operating Duty: Testing / Intermittent / Temperature rise duty

Operating Temperature: 2° to 60° Degree

Installation: 1) Indoor, 2) Mobile Vehicle

Application:

- 1) Distribution & Power Transformer Dielectric Testing
- 2) NABL Accredited Laboratories
- 3) Motor Manufacturers
